

Just Thinkin' About...

By Pastor Ron Lundy

I am mildly colorblind.....

The other day we were getting ready to go out. The lovely Leslie June decided to help me by asking which shirt I would like to wear. When I asked for a particular green shirt she said there was no green shirt in the closet. I went to the closet, pulled it out and said "it's right here". She said, "That shirt is not green, it is grey, you're colorblind". What happened next was totally unexpected.

If you were telling the story to me I would doubt your sincerity. However, I am telling the story so I know it is true. The green shirt turned grey right before my eyes. I mean, one minute it was green and the next it was grey! I have tried more than once to get it to turn green again but to no avail. I can't even come close to seeing it like it was before. Once I had the true color in my mind, there was no going back.

Jesus came to help us see things the way they really are. That's why He said "I am the light of the world". When I met Him in July of 1971, his truth became real to me. As He entered my heart and life, bringing eternal life with Him, the reality of His truth replaced all of my misconceptions. The purpose of life changed before my eyes that day.
